While I am at OAHS, I understand that what I observe or hear regarding patients, residents, employees or physicians is confidential. I agree to refrain from discussing any such information while in public areas or elsewhere that may cause a break in confidentiality.

Furthermore, I understand that I am not to render any personal service to patients or residents. If I am asked to do so I will explain that I am not allowed to render any care since I am not an employee of the organization and therefore not under the liability insurance.

In the event of any emergency or incident that I observe, I will notify the charge nurse immediately.
